

The International Gifted Consortium (IGC) Research Center for the Highly-Profoundly Gifted

in collaboration with The University of Antwerp

invite you to participate in a study of
Overexcitabilities and Highly—Profoundly Gifted
Children

Parent participants have a child between the ages of 5-12 years who has been identified as highly or profoundly gifted via the Wechsler Intelligence Scale for Children (WISC) or similar qualifying test.

The International Gifted Consortium (IGC), Research Center for The Highly—Profoundly Gifted based in the United States of America in collaboration with The University of Antwerp in Belgium is examining the prevalence of emotional, intellectual, imaginal, psychomotor, and sensual overexcitabilities in highly—profoundly gifted children.

Participation in this study is completely voluntary. Participants will receive an e-copy of the upcoming book, *Highly—Profoundly Gifted: A Holistic and Critical Approach*.

Children will not be participating in the study.

For questions OR to participate in the study email: IGCresearch@giftedconsortium.org

Teachers, School Administrators, Psychologists, Pediatricians, please refer parents to the study.
